It's better to laugh in life. And, if possible, to laugh at yourself. In this new graphic novel, cartoonish Alfonso Casas reflects on the various phases of life, portraited through beautiful illustrations created to remind us of the power of our thoughts and the new worlds in which we constantly find ourselves. As in his previous title, Monster Mind, Casas focuses on the premise that all humans live their own lives, within their own minds, which deserve to be treated with grace as our homes among this crazy, big, diverse world.

Visually stunning and poetic – the story of Popeye before he became Popeye!

Everyone knows him: the loud-mouthed, one-eyed sailor man who shows off his biceps after gobbling canned spinach. He's funny, Popeye. His way of speaking, and his ready-made expressions... And what's more, he's a courageous guy, a good guy. A true hero.

But this isn't exactly the Popeye you know. In this graphic novel there are other layers.

Banzai Girl, Jinky Coronado, is a girl of three parallel worlds. The problem is she just doesn't know it yet. The first volume tells the story of Jinky Coronado, a sexy Asian schoolgirl whose nightmares of being a Princess and a Futuristic Freedom Fighter foretell of extraordinary adventures that effect and inspire her real life. Jinky has to deal with High School, romance, grades, and friends until her life is turned upside down for the weird. Her teachers, and eventually her whole town of adults, become controlled by invading creatures that are dubbed the Shadow Whisperers. When Jinky and her best friend Katie J. realize that their parents have been acting a little out of the ordinary, they take matters into their own hands to save the world. Banzai Girl uses Filipino urban legends as the source of their conflict, including a sinister Snakeman beneath a shopping mall and the menacing Manananggal, a revolting, horrifying vampire that splits apart at the waist.

In this first omnibus collecting Rick Geary's Treasuries of Murder series, find three historical true-crime tales from the Victorian Era conveyed through Geary's pen-and-ink cartooning and frank storytelling citing contemporary accounts.

Jack the Ripper covers the story of its notorious namesake's crimes, the reactions of Londoners, and investigators' attempts to pinpoint the true identity of the murderer—an ultimately fruitless venture. The Beast of Chicago delves into the history and crimes of H.H. Holmes, generally considered to be America's first (caught and convicted)
